GOVERNMENT'S ATTITUDE

Washington, April 12.—One effect of the postponement of a decision by the supreme court in the Standard Oil and the tobacco trust cases, because of the desire of that tribunal for a re-argument of the issues involved, will be to defer action by the department of justice against those combinations or trusts believed to be operating in vicilation of the Sherman anti-trust law. This holds good where the vital points of attack on such corporations are similar to those in the suits awaiting settlement by the highest court in

MISSISSIPPI SENATORIAL

BRIBERY INVESTIGATION Yesterday's Proceedings Marked Two Minor Sensations.

Jackson, Miss., April 12.—The prosecution in the bribery investigation in the senate rested its case today and the defense has entered upon its rebuttal testimony. The day's doings were marked by two minor sensations. The first was the exclusion of the newspaper men while Principal Thames of the Poplarville school told why Senator Bibo severed his connection as a teacher with that school three years ago. Senator Bibo's counsel demanded that if the testimony involved moral shortcomings, the press be excluded. The reporters thereupon were requested to withdraw.

The second was the finding of three bank notes issued by the National bank of Poplarville in the \$645 bribe money Bibo turned over to the grand jury. Poplarville is a small town in Mississippi in which Senator Bibo lives.

The afternoon session was given

over to character witnesses who tes-tified to the good reputation for truth and veracity born by Senator Bilbo. There were half a dozen of them and they were strong in their belief that Bilbo was to be believed.

Rome, April 12.—The Vatican has authorized a statement with reference to call made by Abbot Lawrence Janssens, one of the most learned Benedictines and secretary of the congregation of the affairs of religious, on ex-President Roosevelt, on the evening of the latter's departure from Rome. Abbot Janssens did not find Mr. Roosevelt at home, but left his card, on which he wrote in French that he desired to congratulate Mr. Roosevelt for the constant support given to his order and the Catholic church in general in America during his "glorious career" as president, which he hoped would soon be resumed.

The Vatican's statement says:

"The Holy Father has highly disapproved of Father Janssens' initiative towards Mr. Roosevelt as cabled through the Associated Press, as his act of his evidently lends itself to an interpretation offensive to the Holy Father. Father Janssens acted through his own impulse, without any authorization from anyone whatever."

The statement further emphasies the Vatican policy, which, to use its own words, was that "it did not wish Mr. Roosevelt to bracket the pope with other more or less royal personages he will boast of having hunted in Europe after his African hunt."

John M. Holloran, democrat, was elected mayor, over Orson F. Curtis, republican, by a majority of 622.

The city is nominally republican by about 1,500 majority and the election of Holloran is said to have been brought about by the cutting of Curtis by the republicans through dissatisfaction at his nomination.
